

LONGLIFE COOLANT

Product Description

Veedol Longlife Coolant 30% & 50% is a high quality, long life performance cooling liquid with high level of alkalinity reserve, designed with Ethylene Glycol, highly de-ionized water & state of anti-corrosion inhibitor. Recommended for round the year use in cooling systems of cars, trucks, LCV's, tractors and earthmovers.

Features & Benefits

- Product contains multi-metal corrosion inhibitors which gives engine excellent protection against rust and corrosion
- Protects against freezing, overheating and cavitation
- Provides extended service life

Typical Properties

Test Parameters	ASTM Method	Typical Values	
		30%	50%
Color		Green	Green
Specific Gravity @15°C, cSt	D4052	1.042	1.06
Boiling Point, °C	D1120	105	109
Freeze Point, °C	D3321	-22	-38
pH	E70	6.6	7.2

*Properties mentioned above are typical only, and minor variation which do not affect the product performance, are to be expected in normal manufacturing.
